MESSAGE

My wife and I wanted to get cabinet fronts for our kitchen. We didn't know who to contact, so I went to S&A Construction because they were close to where my wife worked. Man, am I glad I did. Stuart Nelson came to our house, measured the cabinets and gave an estimate on what it would cost. He was very friendly and knowledgeable. He made suggestions about what closures would work better for us. Another friendly worker came and installed the cabinets. Stuart came by to see if we were happy with the job and to see if we had any questions. We were very happy and would recommend S&A to anyone. Thanks Again,
Larry Wallace
